About Garden District

Garden District is framed by Tengah Pond and Central Park. A key feature of the district will be the Garden Farmway, a green recreational corridor with communal spaces that promotes an active and social lifestyle.

Within this district, there are garden-themed playgrounds such as flowers and garden creatures that encourages imaginative play. Green markers at key entry points such as botanical arbours with climbers, provide shade and enhance the green ambiance amidst the urban landscape.

Explore the **Tengah Webpage** for the latest updates on Tengah town including when the new amenities, facilities and developments are completing. You can look forward to a suite of new amenities and facilities, and improved connectivity within your neighbourhood in the coming months.

Conveniences at your Doorstep

Garden Bloom @ Tengah comes with a preschool to meet the needs of the residents. You can also find outdoor recreational facilities including the precinct pavilion, adult and elderly fitness stations, as well as children's playgrounds located within the development.

Residents at Garden Bloom @ Tengah may patronize the precinct shop cluster, consisting of an eating house, a supermarket and shops, located at neighbouring Garden Vines @ Tengah for your daily needs. With Plantation Plaza Neighbourhood Centre (NC) located nearby, residents from Garden Bloom @ Tengah can have access to a wide range of shopping and dining options close to home, with a supermarket, food court, restaurants, F&B outlets, retail and services shops conveniently located within the NC. The Tengah Community Club is also located just opposite Plantation Plaza.

Garden Bloom @ Tengah is located near the Jurong Region Line MRT stations. The precinct is served by bus services leading to the city and nearby towns. Residents can walk along the Garden Farmway to reach the "car-free" town centre, and use the extensive network of walking and cycling paths when they are ready in future. These amenities add convenience while serving the transport needs of residents.

Check out **Your Garden Bloom Travel Guide** on the convenient modes of transport you can take within and around the town.

Garden Bloom is in Choa Chu Kang Constituency. Keep up to date on community news and events via the **Tengah Community Hub Facebook!**

Modern Homes

Garden Bloom @ Tengah comprises 2-room Flexi, 4-room and 5-room flats.

The 2-room Flexi flats come in 2 sizes: 40sqm and 49sqm, and are either on a 99-year lease or short-lease. These flats are furnished with floor finishes in the living/ dining rooms, bedrooms, kitchen, household shelter and bathroom. Kitchens and bathrooms come with wall tiles and sanitary fittings like a wash basin with tap mixer, shower set, and water closet suite. A sliding bedroom partition/door and a folding bathroom door are also provided.

The 2-room Flexi flats on short-leases, which are meant for the elderly, are fitted with grab bars. The OCS package for elderly buyers of the 49 sqm 2-room Flexi flats also includes a UPVC sliding door, creating a flexible space for dining, studying, or an extra bed.

The 4-room and 5-room flats have floor finishes in the living/dining rooms, bedrooms, kitchen, service yard, household shelter and bathrooms. Wall tiles are provided in the kitchen and bathrooms, as well as sanitary fittings, i.e. wash basin with tap mixer, bath/ shower mixer with shower set and water closet suite. There are internal doors for bedrooms and folding doors for bathrooms.

Eco-Friendly and Sustainable Living

Tengah is the first HDB town to be planned with town-wide smart technologies from the outset. Garden Bloom @ Tengah integrates smart technology in its design, so that residents can enjoy a quality living environment. The smart technology includes Smart-Enabled homes with provisions to support easy installation of smart systems in the flat; Smart Lighting in common areas to reduce energy usage; and Smart Pneumatic Waste Conveyance System for cleaner and fuss-free waste disposal.

To encourage a green and sustainable lifestyle, Garden Bloom @ Tengah is designed with several eco-friendly features. These include separate chutes for recyclable waste; regenerative lifts and smart lighting in common areas to reduce energy consumption; bicycle stands to encourage cycling as an environmentally friendly form of transport; parking spaces to facilitate future provision of EV charging; and Active, Beautiful, Clean (ABC) Waters design features to clean rainwater and beautify the landscapes.

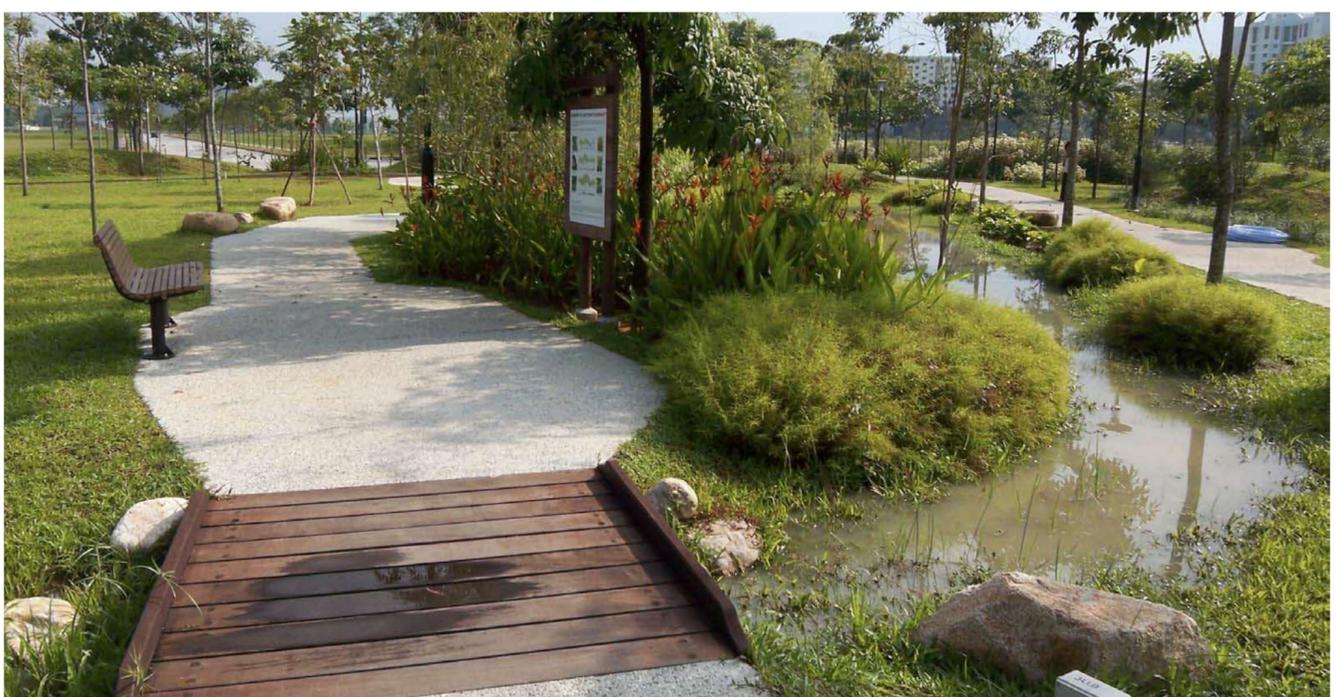

Residents have the option of subscribing to air conditioning provided by the CCS service provider. This system for public housing is the first of its kind in Singapore. The highly energy-efficient chillers serve to cool each household and do away with the need to install and maintain outdoor condensing units on the air-conditioner ledge, thereby, enabling residents to enjoy cost savings while contributing to a sustainable lifestyle in this eco-friendly district. For further enquiries, please contact the CCS service provider, SP Group, at tengahcooling@spgroup.com.sg or visit [mytengah.sg \(https://mytengah.sg/\)](https://mytengah.sg).

LIVING IN TENGAH

Tengah is the first HDB town planned using smart technologies town-wide from the outset. The designs of the housing districts will focus on green, sustainable features and community-centric spaces.

登加是首个一开始就采用智能科技规划的组屋区市镇。住宅区的设计将以绿色、可持续发展的特色和以社区空间为中心。

Tengah adalah bandar HDB pertama yang dirancang menggunakan teknologi pintar di seluruh bandar dari awal. Reka bentuk kawasan perumahan akan memberi tumpuan kepada kawasan hijau, ciri-ciri mampan dan ruang berpusatkan masyarakat.

Live Well

At Tengah, residents will get to live in homes that are designed with their health and well-being in mind.

This is guided by HDB's well-being framework, which focuses on three dimensions:

Live Green

Green living in Tengah is made accessible through the use of smart technologies and environmental studies, to create a sustainable and comfortable environment, while enabling residents to benefit from more efficient services and greater convenience.

Pneumatic Waste Conveyance System

Centralised Cooling System

Smart Enabled Homes

Live Connected

Residents will have opportunities to connect with each other and be involved in shaping and activating neighbourhood spaces in Tengah. Residents will have the chance to enjoy growing and sharing the fruits of their harvest with their neighbours.

The Tengah neighbourhood also has amenities such as nature-themed playgrounds, fitness stations and open green spaces. Residents will have the opportunity to foster neighbourly relations within their community.

Car-Lite Town

COMPREHENSIVE ROAD NETWORK

As a car-lite town, travel by public transport including buses is encouraged.

Some roads entail bus priority features such as bus lanes, bus signals or are dedicated “bus-only”.

Arterial roads connect to the external network at multiple points along the KJE, PIE, Brickland Road and Bukit Batok Road.

MRT NETWORK

Most residents are within walking distance to one of the four MRT stations located within Tengah and are well-connected to amenities located in Tengah as well as nearby towns.

WALKING AND CYCLING EVERYWHERE

Dedicated walking and cycling paths on both sides of the road, for safe and seamless connections.

Shared walking and cycling paths within the Farmways have shaded paths, rest stops and spaces for community activities.

Forest Corridor

One major attraction is the creation of an approximately 100m wide and 5km long **Forest Corridor**, a collaboration between HDB and National Parks Board (NParks), which forms part of the larger network of greenery that connects the Western Water Catchment Area and the Central Catchment Nature Reserve.

This Forest Corridor will be planted with various tree species to transform it into a rich forest habitat.

Forest Corridor

Forest Fringe

Complementing the Forest Corridor is the Forest Fringe, a 15m to 20m wide linear greenscape that provides a peaceful and rustic environment for residents to enjoy flora and fauna, and envelops the town within a scenic and natural landscape.

Extensive park spaces such as the Central Park and Community Farmways string key amenities and facilities together, providing a safe environment for residents to access their daily amenities.

Forest Fringe

Co-Living with Wildlife

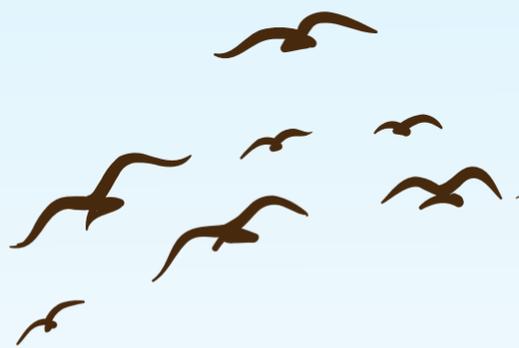

These green spaces in Tengah are the natural habitats of wildlife (such as birds, bats, snakes, long-tailed macaques) and we share these spaces with them.

To co-exist safely and responsibly with wildlife, we will need to be mindful of our actions and habits that may be seen as threatening, or attractive to them.

CHECK OUT!

BIOPHILIC NEIGHBOURHOOD

FOR BETTER ENVIRONMENTAL HEALTH & HUMAN WELL-BEING

The HDB Biophilic Town Framework guides the development of residential landscapes to promote a greater sense of place, better health and well-being, and enhanced quality of life for residents. The framework takes into consideration five categories - Soil, Flora & Fauna, Outdoor Comfort, Water, and People. Residents can look forward to opportunities to reconnect with nature and enjoy its intrinsic benefits.

建屋发展局的亲生态市镇框架为社区景观的规划和设计提供了坚实的基础，提高了居民的归属感、幸福感以及生活品质。该框架依据土壤、动植物、户外舒适度、水和人这五大因素，为居民创造了一个以大自然为轴心的邻里，使居民可以尽情享受大自然的拥抱。

Rangka Kerja Bandar Biofilik HDB memberi panduan bagi pembangunan landskap kawasan perumahan untuk meningkatkan semangat kejiranan, kesihatan, kesejahteraan dan mutu kehidupan para penduduk. Rangka kerja ini merangkumi lima kategori - Tanah, Flora & Fauna, Keselesaan Kawasan Luar, Air dan Manusia. Para penduduk boleh nantikan peluang untuk berhubung dengan alam semula jadi, dan menikmati manfaat-manfaat intrinsiknya.

HABITAT PROVISION

Habitats for birds and butterflies in the neighbourhood help to promote greater biodiversity, which is essential in maintaining a healthy ecosystem within the urban living environment.

MOSQUITO CONTROL

Limit the amount of standing water between leaves with ideal plant selection prevents mosquito from breeding.

FRESH PRODUCE

Community gardens offer great opportunities to interact and bond with your neighbours while generating food for the table.

STORMWATER MANAGEMENT AND WATER CYCLING

Rain gardens and bioswales help to slow down and cleanse stormwater runoff, while adding interest to the landscape and providing restorative benefits for people.

RECREATION

A wide variety of active and passive recreational amenities helps to promote healthy lifestyles for all ages.

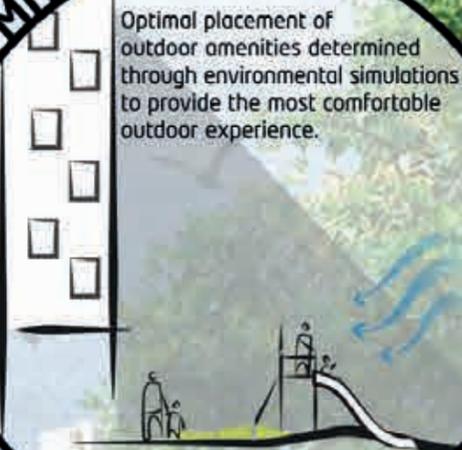

NOISE ABATEMENT

Use of vegetation and landforms to screen and deflect noise from the surroundings for a more conducive outdoor environment.

HEAT MITIGATION

Optimal placement of outdoor amenities determined through environmental simulations to provide the most comfortable outdoor experience.

EROSION CONTROL

Use of vegetation and bioengineering techniques to enhance the retention of soil and maintain the stability of slopes for greener and more sustainable landscapes.

NUTRIENT CYCLE

Use of green infrastructure to maintain soil quality and enhance plant uptake of nutrients for a lush, green living environment.

SOCIAL RELATIONS AND SENSE OF PLACE

Accessible green spaces of varied sizes allow you and your family to indulge in a wide range of activities that foster your connection with the people and the place.

EDUCATIONAL VALUES

Interpretive panels and natural element in the neighbourhood landscapes help to promote environmental awareness and stewardship.

RENOVATION & MAINTENANCE TIPS

As a flat owner, you must ensure that the renovations in your flat are carried out according to the renovation guidelines. Wrong and unsafe practices, such as unauthorised hacking of walls, may compromise the structural integrity of the entire block of flats, and endanger the safety of your family members and your neighbours.

Here are some useful tips when renovating your home.

身為屋主，您有責任確保組屋內部的裝潢是根據裝修條例進行。錯誤或不安全的裝修工作，如未經允許拆毀牆壁，可能影響到整座組屋結構的完整性，危及到您和您的家庭成員，以及鄰居的安全。

Sebagai pemilik flat, anda bertanggungjawab bagi kerja-kerja ubah elok dan perlu memastikan bahawa kerja-kerja ubah elok di flat anda dijalankan mengikut garis panduan pengubah-suaian. Amalan yang salah dan tidak selamat, seperti kerja-kerja memecah dinding yang tidak diluluskan, boleh menjejaskan integriti struktur keseluruhan flat di blok, dan membahayakan keselamatan ahli keluarga dan jiran-jiran anda.

Getting the Right Contractor

Only engage contractors who are allowed to renovate HDB flats.

Contractors listed in the [Directory of Renovation Contractors](#) are specially trained and familiar with HDB's conditions and guidelines for all renovations in the flats.

Negotiate with your appointed contractor on the terms of the renovation contract, including the quality of their works.

Before entering into a private contract with the contractor, consider if you are agreeable to the:

- Quotation and pricing
- Scope of works
- Proposed timeline for completion

Renovating Right

Unauthorised renovations could be dangerous! Ensure the necessary approvals are obtained before commencing with renovations e.g. demolition of walls.

The contractor must adhere to HDB's renovation guidelines when carrying out the works.

Find out more on the [renovation guidelines and requirements](#).

Renovating Responsibly

Proper Usage of Lifts

Misusing the lifts leads to breakdowns and damage, inconveniencing you and your neighbours, especially the elderly and those who have restricted mobility.

Jamming the lift doors could damage the lifts! Remind the contractors and furniture delivery crew to use the lifts properly, be considerate to other users and keep the lifts clean and free of debris.

Proper Disposal Of Waste Materials

Do not throw renovation waste into the refuse chute. Flushing or washing debris into the gully and toilet bowls choke and damage the sanitary network.

Suppliers and contractors have to dispose packaging materials and debris properly.

Keeping to the Permitted Timings for the Works

Contractors can only work within the permitted timings.

If you are a hands-on person, remember to avoid carrying out any Do-It-Yourself (DIY) works involving drilling or hammering from 10.30pm to 7.00am.

Regular upkeep saves costs

Keeping the flat in good condition will help to avoid costly repairs in future. It is important to take proper care and carry out regular maintenance of your flat.

Maintaining the Flat

Get your own repair contractor or ask your friends and family members for a reliable handyman service.

You may even carry out the maintenance on your own if you know how!

Tips:
Replace worn parts early.

Tips:
Disconnect any unnecessary appliances, and do not overload sockets.

Tips:
Keep the rooms well-ventilated to prevent wall cracks due to expansion and contraction of the materials from temperature changes.

Tips:
Check the windows regularly to ensure that they are in good condition at all times.

Tips:
Install a sink strainer to prevent discharge of solid materials into the sink.

TOWARDS A CLEANER & HEALTHIER NEIGHBOURHOOD

Pneumatic Waste Conveyance System

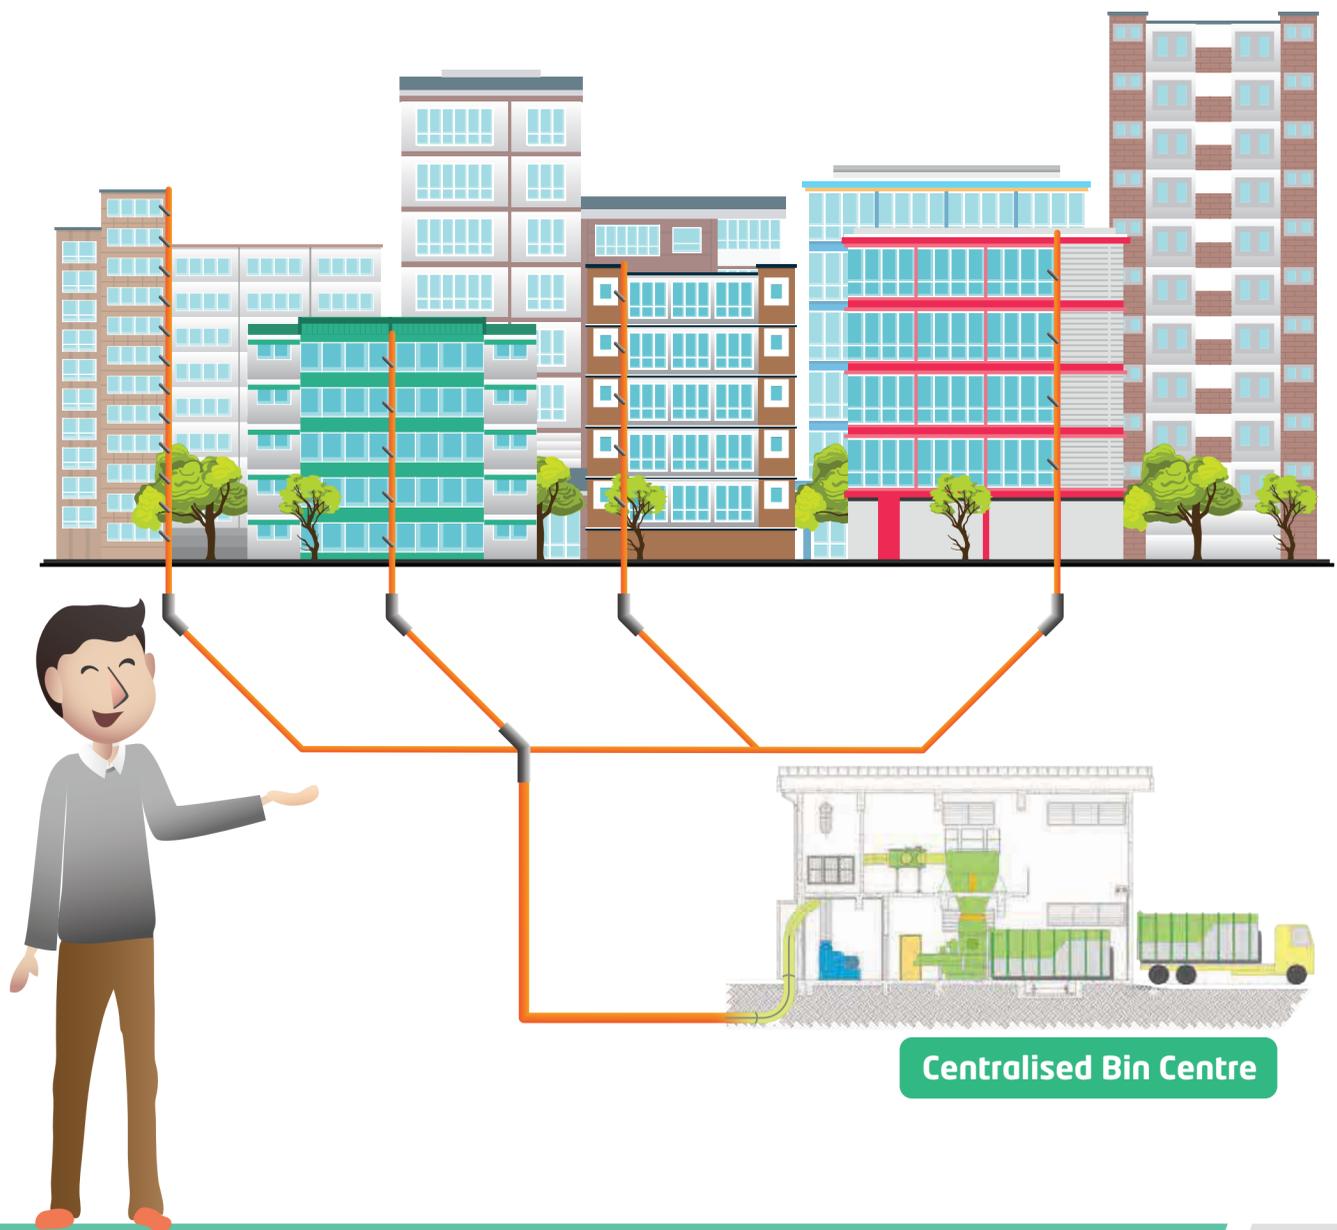

Your precinct has been installed with a Pneumatic Waste Conveyance System (PWCS). You will enjoy a cleaner and greener environment as the PWCS transports refuse by air suction through underground pipes to a central collection area.

您的组屋区已安装了自动化气动垃圾收集系统（PWCS）。PWCS以抽气的方式将垃圾通过地下管送往中央收集站，

让您与居民享有更干净的居住环境。

Presint anda telah dipasang dengan Sistem Pengangkutan Sampah Pneumatik (PWCS). Anda akan menikmati sekitaran yang lebih bersih dan hijau kerana PWCS mengangkut sampah sarap dengan menggunakan sedutan udara melalui paip bawah tanah ke kawasan pengumpulan pusat.

உங்களுடைய வட்டாரத்தில், சாய்வுதள மறுப்பு, வாயுக் கழிவுகள் வெளியேற்ற அமைப்புடன் (PWCS) இணைக்கப்பட்டிருக்கிறது. இந்த முறையின் கீழ், பூமிக்குக் கீழ் உள்ள குழாய்களின் மூலம், குப்பையானவை காற்றால் உறிஞ்சப்பட்டு, மத்திய சேகரிப்பு இடத்திற்குக் கொண்டு செல்லப்படுகின்றது. அதன்மூலம், நீங்கள் சுத்தமான, பசுமையான சுற்றுச் சூழலை அனுபவிக்க முடியும்.

Benefits of PWCS

Here are some benefits you will enjoy with PWCS;

- Eliminates foul odours emitted from refuse chutes
- Reduces spillage during refuse collection
- Reduces pest infestation
- Reduces noise pollution from waste collection trucks
- Promotes hygienic and cleaner environment

PREVENTION OF CHOKAGE AND RUBBISH CHUTE FIRE

Size of refuse bag should be smaller than the hopper opening.

Extinguish burning items before throwing.

Do not throw long objects and heavy waste into rubbish chute.

Disposing of folded carton boxes, foam packing, curtains or pillows could cause them to expand inside the refuse chute and cause blockage.

FAQ

Q1. What powers the PWCS in Tengah?

Like any common services serving the residents, PWCS will be powered by solar panels and power from the grid.

Q2. How often do we face PWCS clogs?

The PWCS will not clog if waste disposal is properly carried out. For newly completed BTO projects, chokes typically happen during the initial moving-in period due to improper waste disposal by residents, renovation contractors, workers, and movers who dispose of bulky items into the refuse chutes.

Q3. How do I dispose of my bulky refuse in Tengah?

For the removal of bulky refuse such as furniture or large appliances, residents can contact the local Town Council (TC) for assistance.

Semi-bulky waste (e.g. packing waste, carton boxes) can be disposed at the bulky refuse area. This area differs from precinct to precinct. TC will provide the necessary signages and maps to guide residents on where to throw your semi-bulky waste.
