What should i know about Enkia?

- Enkia thins the blood, which prevents you from getting dangerous blood clots.
- Enkia must be taken exactly as prescribed by your doctor. To ensure optimal protection from blood clots, never skip a dose.
- You must not stop taking Enkia without first talking to your doctor as your risk of blood clots may increase.
- Tell your healthcare provider about any other medicines you are currently taking, took recently or intend to start taking, before you start Enkia.
- Tell your healthcare provider that you are taking Enkia before any surgery or invasive procedure.

When should i seek advice from my healthcare provider?

When taking a blood thinner such as Enkia it is important to be aware of its possible side effects.

Bleeding is the most common side effect.

Do not start taking Enkia if you know you are at risk of bleeding, without first discussing this with your doctor.

Tell your healthcare provider straight away if you have any signs or symptoms of bleeding such as the following:

- pain
- swelling or discomfort
- headache, dizziness or weakness
- unusual bruising, nosebleeds, bleeding of gums, cuts that take a long time to stop bleeding
- menstrual flow or vaginal bleeding that is heavier than normal
- blood in your urine which may be pink or brown, red or black stools
- coughing up blood, or vomiting blood or material that looks like coffee grounds

How do I take Enkia?

To ensure optimal protection, Enkia

- 15 mg must be taken with food
- 20 mg must be taken with food
