Get your business future-ready with InvoiceNow

*All you need to know about InvoiceNow*

INVOICE NOW

Version 1.3 (Updated on 26 Feb 2026)

What is InvoiceNow?

Introduced in 2019 by the Infocomm Media Development Authority (IMDA), InvoiceNow is the nationwide e-invoicing network that enables businesses of all sizes to boost productivity in invoice processing.

Operating on the international Peppol standard, InvoiceNow enables seamless transmission of e-invoices securely across different finance systems.

Over 63,000 businesses in Singapore are already on the InvoiceNow network, utilising a variety of InvoiceNow services offered by InvoiceNow-Ready Solution Providers (IRSPs) and Access Point (AP) Providers.

InvoiceNow Network

Access Point

Access Point

Access Point

Free or low-cost portals for quick solutions

Off-the-shelf accounting or finance solutions

In-house enterprise solutions for deep integration

Micro businesses

If you do not have any existing finance or accounting solutions, consider free solutions with basic InvoiceNow capabilities.

Small or medium-sized businesses

Adopt a solution from any IMDA-accredited InvoiceNow-Ready Solution Provider and activate the InvoiceNow feature on your solution.

Large enterprises

Engage an IMDA-accredited Access Point Provider to help you connect your in-house enterprise solution to the InvoiceNow network.

Join us on the road towards efficient tax compliance

To support the nationwide InvoiceNow initiative and digitalise tax administration, GST-registered businesses will be required to use InvoiceNow-Ready Solutions to submit invoice data to the Inland Revenue Authority of Singapore (IRAS).

Businesses will continue to fulfil their existing GST responsibilities, including the filing of GST returns and the keeping of proper business and accounting records.

What is the GST InvoiceNow Requirement?

GST-registered businesses must send invoice data pertaining to their GST supplies and purchases to IRAS using InvoiceNow-Ready Solutions via the InvoiceNow network. Invoice data covers all data on invoices or equivalent documents that serve as bills of payment (or adjustments of bill for payment) for supplies and purchases made.

Tax invoices

Credit notes

Aggregated cash sales, aggregated petty cash purchases
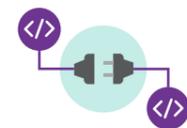

Roadmap for the GST InvoiceNow Requirement

GST-registered businesses will be required to onboard InvoiceNow and submit invoice data directly to IRAS via the InvoiceNow network. This will be mandated in phases.

IMPLEMENTATION DATE	BUSINESSES INVOLVED
1 November 2025	Companies that register for GST voluntarily within 6 months of incorporation date
1 April 2026	All new voluntary GST registrants, regardless of their incorporation date or business structure
1 April 2028	All new compulsory GST registrants Existing GST-registered businesses with total annual supplies* ≤ S$200,000
1 April 2029	Existing GST-registered businesses with total annual supplies* ≤ S$1,000,000
1 April 2030	Existing GST-registered businesses with total annual supplies* ≤ S$4,000,000
1 April 2031	Existing GST-registered businesses with total annual supplies* > S$4,000,000

*Total annual supplies refer to the total value of standard-rated, zero-rated and exempt supplies made in all the prescribed accounting periods ending in calendar year 2025.

Gearing up and preparing early

Here's how you can ensure a smooth transition for the GST InvoiceNow Requirement.

Step 1: Ensure that your solution is InvoiceNow-Ready

Check if your preferred solution is listed on IMDA's accredited InvoiceNow-Ready Solution Provider list here: go.gov.sg/invoicenowirsp

If you are using an in-house enterprise solution, get in touch with an IMDA-accredited Access Point Provider to connect with the InvoiceNow Network here: go.gov.sg/invoicenowap

Step 2: Register for InvoiceNow and obtain your Peppol ID

Approach your InvoiceNow-Ready Solution Provider and/or Access Point Provider to register your business in the SG Peppol Directory with your UEN and obtain your Peppol ID.

Step 3: Enable the GST InvoiceNow submission feature

Enable the GST InvoiceNow submission feature in your InvoiceNow-Ready Solution so that your business can submit invoice data directly from the solution to IRAS. Those using an in-house enterprise solution should contact their Access Point Provider to ensure that your solution is connected to IRAS and that the GST InvoiceNow submission feature is enabled.

Common challenges faced by businesses

1. Multiple platforms create inefficiencies

Businesses use different solutions and processes for invoicing with their business partners and the government, which can be time-consuming and tedious to manage.

2. Manual data entry drains resources

Buyers need to input invoice data into accounting solutions manually, which is prone to errors, delays, and higher costs. Suppliers face similar challenges, having to input data into buyer portals manually.

3. Manual workflows increase the risk of delays

Invoices can get lost in mailboxes, unattended during staff absences, or fail to reach recipients due to incorrect email addresses.

4. Manual processes prolong GST audits and compliance checks

Businesses face challenges in submitting data promptly to IRAS during audits. Businesses also need to manually check for wrongful charging of GST by non-GST registered suppliers.

InvoiceNow benefits that will steer your business forward

1. Simplifies invoicing across all business relationships

Leverage a single invoicing solution of your choice for all parties – including business partners and government entities – while ensuring seamless tax compliance.

2. Reduces manual effort and boosts business efficiency

InvoiceNow automates invoice data transmission directly into buyers' accounting systems, eliminating the need for manual data entry and reducing errors.

3. Enhances reliability and ensures data security

Invoices are transmitted securely through the InvoiceNow network using the international Peppol standard, minimising the risk of loss or compromise.

4. Minimises compliance efforts and shortens GST audit process

With InvoiceNow-Ready Solutions, businesses can expect shorter GST audits and faster refunds as invoice data is transmitted to IRAS. Businesses can also receive auto alerts for wrongful GST charging from non-GST registered suppliers*.
