

Last update: 5 June 2026

Whitelisting and Registration Requirements

Mobility scooters are classified as Class A medical devices under the Health Products Act. Businesses dealing in mobility scooters must comply with the requirements of both the Health Sciences Authority (HSA) and LTA.

Importers, manufacturers and wholesalers are subject to HSA's medical device licensing requirements, while mobility scooter retailers must comply with LTA's registration requirements.

To register and sell a mobility scooter from 1 June 2026, retailers must:

- a. Ensure that the device model is listed on HSA's Class A Medical Device Database by the importer or manufacturer;
- b. Whitelist the device model and their company with LTA via FormSG;
- c. Have each mobility scooter unit registered and tagged by an Authorised Inspection Centre (AIC), i.e. a designated examiner authorised by LTA under section 35B of the Active Mobility Act; and
- d. Transfer device ownership to the new owner via OneMotoring at the point of sale. The new owner must have a Certificate of Medical Need or be exempted from the requirement for the transfer to process.

From 1 June 2026, it will be an offence to sell, display or advertise an unregistered mobility scooter. Any unregistered devices found on display for sale at a retailer's premises may be impounded.

Please refer below for the list of whitelisted mobility scooter models and the approved eligible entities(retailers) offering them for sale.

THE APPROVED LIST OF ELIGIBLE ENTITIES (RETAIL)

Mobility Scooter Models and Eligible Entities (Retail)

Note: LTA does not endorse either the mobility scooter models or retailers in this list. Consumers should assess their own needs before making a purchase.
