Ambition • Self-discipline • Perseverance • Integrity • Respect • Empathy

Principal's Message

A wise man once said that there is a season for everything. It is with a great sense of joy and relief that we have, as a nation, gradually emerged from the season of the pandemic. With the removal of compulsory mask wearing from 29 August, students and teachers have been able to return to the familiar school life of assembly meetings, playing with friends during recess and going for overnight camps once again!

Many of you would have come across the news during the recent Primary 1 Registration Exercise that Princess Elizabeth Primary School is the most oversubscribed school in 2022. This would not have been possible without the strong trust and bonds that have been developed between our school and the community over the past 7 decades.

As the school moves into a new season of its history with the opening of the MOE Kindergarten at PEPS next year, I am confident that this relationship between our school and the residents of Bukit Batok and beyond will continue to grow and flourish.

I am honoured and grateful to have had the chance to lead this school for the past 9 years. As my season here comes to an end, I would like to express my heartfelt thanks and appreciation to my wonderful family here at PEPS. To the colleagues, School Advisory Committee members, SPIE members and PEPS Alumni, it has been a privilege working with everyone over the years.

It is going to be a goodbye but not a farewell. PEPS holds a very dear place in my heart and I look forward to learning more about the school's achievements in the future. Wishing one and all a joyous year-end celebration with your loved ones and a wonderful 2023 ahead.

Mdm Moliah Binte Hashim
Principal

Mother Tongue Fortnight

For the PEPS Language and Cultural Fortnight this year, the aim was to engage students with learning experiences beyond the textbooks. They got to learn and appreciate their own Mother Tongue languages and cultures through different activities.

In collaboration with Racial Harmony Day, our school's theme for Language Fortnight in 2022 was "Art and Entertainment". Our students were immersed in activities related to art and entertainment and had a whale of a time!

CHINESE LANGUAGE

▲ P1s - Learnt more about the zodiac animals

▲ P5s and P6s - Engaged in a freeze frame activity after a movie screening

▲ P3s - Made traditional rod puppets

▲ P4s - Made their own puppets

▲ P6s - Played Pallanguchi in class

▲ P1s - Tried gasing painting

MALAY LANGUAGE

▶ P3s - Tried batik painting

▲ P4s and P5s - Took part in role playing

▲ P1s and P2s - Did Kolam drawings

TAMIL LANGUAGE

Language and Cultural Fortnight

The PEPS Language and Cultural Fortnight was held to promote both the English and Mother Tongue Languages as well as to enhance the students' understanding of their Mother Tongue cultures.

Our students were exposed to different current affairs / contemporary issues during their English Language activities based on the theme "Stay Current to Remain Relevant". This helped to broaden their thinking while listening to different perspectives. Adopting TALK@PEPS, class activities and SLS assignments were planned and prepared for the students to engage them in topics like Care for the Environment, Recycle Right and Cyber Wellness.

During recess, the students viewed different articles on current affairs / contemporary issues in the school canteen.

Characters Alive Day was held on 18 July 2022. All students and staff were invited to dress up as book characters to promote reading. Prior to that day, book to movie trailers were screened in the canteen to arouse the students' interest in the book characters. An assembly programme was also held on the same day.

▲ 1. Our teachers joined in the fun too!

◀ Students dressed as their favourite book characters

National Education Events in 2022

Total Defence Day

PEPS commemorated Total Defence Day on 14 February with the theme, "Together We Keep Singapore Strong". It was a commemoration that was conducted online and featured scenario-based discussions. For instance, the Primary 4 and 5 students discussed the importance of 'Being Prepared for Any Emergency'. Through these activities, students deepened their knowledge of the six pillars of Total Defence in their daily lives and affirmed their commitment to practising them.

▲ Teachers wearing international costumes during International Friendship Day

International Friendship Day

This year, PEPS celebrated International Friendship Day (IFD) on 11 April based on the theme "Singapore in the World". The Primary 4 to 6 students had their IFD interactive activities in their classrooms while the Primary 1 to 3 students celebrated in the hall. The lovely sight of colourful traditional costumes worn by the students in the hall was a feast for the eyes. The IFD celebration also included a fashion show put up by their teachers to showcase the different costumes worn around the world.

Students were reminded of the importance of international collaboration and cooperation. The festivities ended with the singing of a song about friendship produced by Lianhua Primary School entitled 'We as One'.

▲ Students having a day at school dressed in their international costumes

▲ Our students enjoying recess dressed in their international costumes

▲ International Friendship Day celebration at the hall

◀ Fashion show during the IFD celebration at the hall

Racial Harmony Day

Racial Harmony Day was commemorated on 21 July with students and teachers wearing various ethnic costumes. This year's theme was "Our Multicultural Mosaic" and it reflected how each community, while expressing its own identity as part of Singapore's society, also intertwines with others to depict the unique cultural diversity that characterises Singapore life.

During the assembly talk, students learnt about the different races and were encouraged to build friendships among communities in order to emerge stronger as a more caring, cohesive and resilient nation.

During recess, students tried different traditional games like capteh, five stones and zero point. Through these games, they learnt to play harmoniously and were exposed to the different cultural practices of communities other than their own.

The RHD celebration which was held in tandem with the school's Language and Cultural Fortnight, celebrated Singapore's rich diversity of cultures allowing PEPS students to appreciate the mosaic of cultures that make up Singapore and to respect people from different racial and religious backgrounds.

National Day

After two years of muted celebrations, PEPS celebrated National Day on a large scale as in-person activities resumed. Finally being able to celebrate together as a school embodied this year's theme "Stronger Together, Majulah" - a call for all Singaporeans to forge ahead as a united and strong people towards a better future.

During the formal observance ceremony, the Parade Commander, Mr Yazid, led the CCA uniformed groups at the march-in segment. The 'Recollections' segment saw our students from the Voyage of Discovery Programme reflect on past and present challenges faced by our country and how each of us had a part to play in building a stronger Singapore. This was followed by the reading of the National Day message by our school principal, Mdm Moliah. Lastly, the ceremony ended with the singing of National Day songs, 'Stronger Together' and 'Home', evoking a sense of belonging and emotional rootedness to Singapore amongst all who participated.

The second half of the celebration was more light-hearted with performances by the Chinese Orchestra CCA group, our PEPS teachers and even students from Eden School! The celebration ended on a high note with the PEPS family singing and dancing to the NDP 2022 theme song, 'Stronger Together', and other favourites such as 'Singapore Town' and 'The Road Ahead'.

P4 Signature Programme @ Marina Barrage and Gardens by the Bay

It was a day unlike any other on 7 July 2022. Our P4 students arrived at school with much buzz and excitement as there were no formal lessons that day! Instead, their learning happened out of school as they went to the Marina Barrage to fly kites. For many, it was their first time flying a kite and most required help from their peers to release their kites into the air. Through collaboration, effective communication and problem solving, many were eventually successful in flying their kites! In fact, the teachers were also instrumental in ensuring that the kites were up and floating carefreely in the cerulean sky, and the students had a whale of a time.

A collaboration with the Science department also allowed the students to visit the Flower Dome at Gardens by the Bay. At the dome, the students went on a nature trail during which they learnt to appreciate plant diversity, recognise that plant parts have unique functions and understand why some plants evolve to have special features given their unique environments. It was a rich learning experience for both students and teachers alike.

► A challenge to fly the highest kite

▼ P4 students flying kites at Marina Barrage

▲ Students learning about plants

▲ Tour facilitator pointing out a special feature of a plant

P5 NE Show

It was the first time since 2018 that the National Education Show was held at The Float @ Marina Bay.

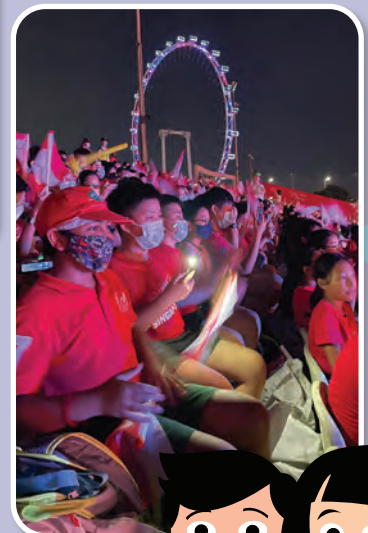

Our P5 students were in for a real treat as they watched the show live on 16 July. Decked in bright red T-shirts, everyone gathered in school excitedly as early as 12 noon. Students enjoyed a KFC meal and brought home an NDP Pack each. The packs, designed by aspiring artists with disabilities, contained both sustenance and interactive items.

The theme song "Stronger Together" was an upbeat number composed by Don Richmond and performed by Taufik Batisah. It rallied Singaporeans to unite and overcome our challenges together to look ahead to a brighter future.

Our students were lucky to grab the best seats at the platform - one that had the majestic view of the Singapore Flyer and a picturesque view of the city skyline at night. They also had a bird's eye view of the stage at The Float which featured a specially curated "stage wings" structure. The structure, which was made up of individual screens, could be configured live to augment the performances on stage.

Our students were treated to a Total Defence display that showcased the Singapore Armed Forces and the Home Team conduct air, land and sea demonstrations. Other highlights included the aerobatic displays by F-16 fighter jets and the freefall jumps by the Red Lions. They sang along to the familiar NDP songs and did the Marina Wave. The night concluded with a series of performances and a captivating fireworks display.

It was a truly memorable experience for our P5 students who not only learnt the significance of National Day but were also inspired to pursue their dreams and aspirations in the face of challenges.

PAM Day and Children's Day

► Having a go at caricature

PAM Day, which stands for 'PE, Art & Music' Day, fell on the 6th of October this year. The objectives of PAM Day were to heighten the interest and appreciation for PE, Art and Music as well as to inculcate positive and desirable values through PAM activities. It was a day filled with fun and excitement for the children as they participated in a series of activities related to PAM.

For the PE activity, the students were engaged in carnival-style games prepared by the Primary 6 students and their PE teachers. The students collected stamps upon the completion of the games to redeem attractive prizes.

They watched professional beatboxers and a show choir perform live on stage during the Music activity. Students also had the opportunity to perform for one another during our school's annual 'Every Child A Performer' or ECAP programme.

As for the art activity, our middle and upper primary students learnt the basics of caricature drawing while our younger ones created animal paper crowns for their ECAP performances.

The day ended with a Children's Day Concert with exciting performances specially prepared by our talented teachers that got the students laughing, cheering and jumping with joy. It was indeed a day of fun!

► The lower primary students wearing their animal paper crowns for their performance

► Our upper primary students performing with a variety of musical instruments including the ukulele, chime bars and electronic keyboards

► Students taking part in the games for the PE activity

► Game stalls set up by our Primary 6 students and PE teachers

Sports Day 2022

The Sports Education Programme (SEP) is a collaborative partnership between Sports Singapore and the Ministry of Education. It aims to advocate the importance of sports education, encourage sports participation in schools and increase sporting opportunities for the young.

► Kids' Athletics for P1 and P2

► Goalball for P3

► Tchoukball for P5

► Kinball for P6

This year, PEPS resumed our annual Sports Day event using the SEP for each level. By making it an Inter-House event, it promoted the House spirit and fostered character building. It also aroused interest amongst students in continual sports participation. The P4 SEP was held in early November during their P4 Camp.

The LOVE Experience

The **Learning Our Values through Empathy (LOVE)** Experience is a **Values-in-Action (VIA)** learning journey for our P1 to P5 students which helps them to become citizens of a more inclusive society. Running for the second year, students learnt about specific groups of people who deal with physical or cognitive issues. By applying the **Inclusive Design Thinking process**, our students learnt more about these groups of people, developed empathy for them and created prototypes that would help solve issues faced by them.

The P1s learnt about the difficulties faced by the elderly people while the P2s got to understand the issues faced by people with hearing impairment. The P3s learnt about the visually impaired and how guide dogs have helped some become more independent.

The P4s focused on people with dyslexia while the P5s interacted with teachers from Eden School and got to better understand people with Autism Spectrum Disorder (ASD). For their VIA project, the P5s embarked on the process of creating eBooks that would help students from Eden School learn more about life skills such as shopping at a supermarket, and planning for a birthday party.

The entire LOVE Experience culminated with the level-respective Self-Discipline Days (SDD) during which the students dedicated themselves to making and presenting their IDT process and prototypes. With the aid of technology, the students also developed self-directedness as they went about their day with minimal teacher supervision.

5) Insert a coin into the coin slot so that the shopping trolley can be pushed around.

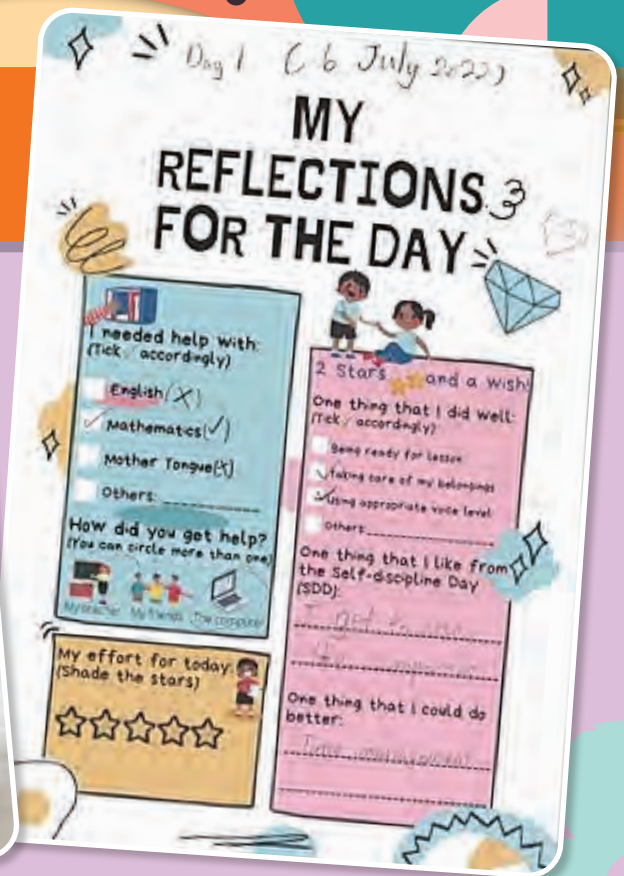

P2 Self-discipline Day (SDD) @ PEPS

P2 SDD @PEPS was an enriching and exciting experience for the students. They were provided with the opportunity to own their learning by having the flexibility to use their time and put their ICT skills into action.

The students enjoyed the opportunity to pace their learning. Some brought home the task and continued growing their plants as an extension

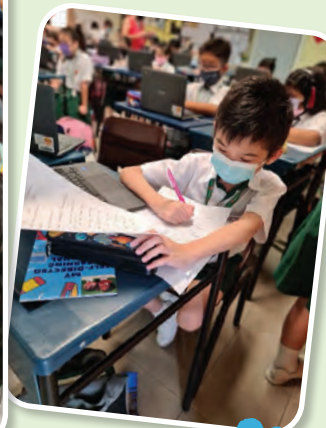

The teachers were glad that most of their students could complete their tasks independently. Good job, Primary 2 students!

P3 Self-discipline Day (SDD) @ PEPS

The Primary 3 students had their Self-Discipline Day during which they experienced being self-directed, independent and passionate learners.

The teachers combined online educational materials and opportunities for interaction online with traditional place-based classroom methods. From the results of the post-activity survey, more than 80% of the students indicated that they were able to meet most of the criteria of a self-directed learner. Way to go, Primary 3 students!

STEM Fest 2.0

After a three-year hiatus, students, parents and teachers had a fun and knowledge-filled STEM FEST 2.0, Refreshed! in Term 3.

STEM Fest 2.0 took learning out of the classroom. Students had the opportunity to engage in discovering STEM (Science, Technology, Mathematics and Engineering) concepts in a more interactive manner. Incorporating the daily items that we see around us, students explored STEM through the activities planned.

During their recesses, students were busy building bridges that supported large masses and launchers that shot confetti. Students exhibited the values of ambition and perseverance as they worked together to complete the challenges.

'World of Colours' Joint-School Art Exhibition

In collaboration with National Library Board (NLB), our school partnered with Shuqun Primary School to curate and put up an on-site art exhibition at Jurong Regional Library from 27 August to 16 September. This art exhibition provided a platform for Art Club members to showcase and present their artworks in a public space. 'World of Colours' celebrated our students' creative artworks which were inspired by the vibrant hues found in nature and our environment.

During the official exhibition opening, our student presenters shared more about their ideas, inspiration and artistic processes to parents, fellow students as well as members of the public. Our Art Club members showed ambition and perseverance in creating the artworks and preparing for this event.

▲ Our student presenter, New Kai Lok, talking about the inspiration and artistic processes

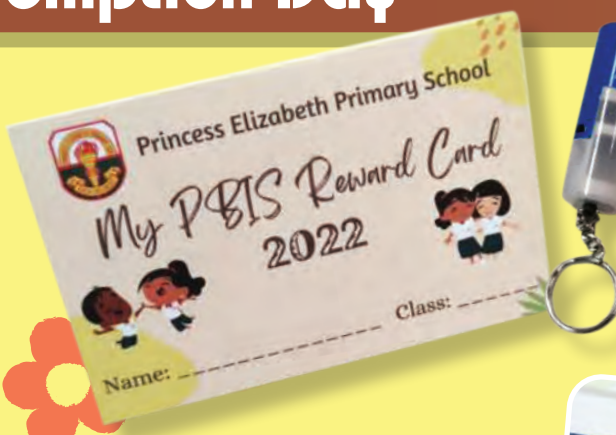

▲ Our student presenters talking about their artworks to parents, peers and the public

▲ Student presenters from Princess Elizabeth Primary School and Shuqun Primary School

The ASPIRE Reward Card and Rewards Redemption Day

As part of the school's effort to affirm and recognise students' efforts to live out Everyday Leadership, which is key in developing their character, an ASPIRE Reward Card was issued to our students in Semester 1. They were then given a stamp on their cards when they were seen living out each of the school ASPIRE values.

◀ ▶ PBIS ASPIRE Reward Card and Stamp

All school staff members were empowered to reward students with a stamp for every good behaviour observed. It was heartening to see staff members in the General Office affirming our students who greeted them respectfully with a stamp for Respect and a stamp for Integrity when they reported any money they had found. Towards the end of Terms 2, 3 and 4, students excitedly redeemed their stamps for rewards of their choice during the Rewards Redemption Day.

▶ Arcade Game Redemption

◀ Redemption of toys and games

◀ ▶ Redemption Day made possible with the help of Teachers and Parent Volunteers A big THANK YOU to all of you!

SWBC Activities in Semester 2

Teachers had an enjoyable and exciting workout when the SWBC engaged an external vendor to conduct an Archery Tag session in our school.

Teachers were invited to attend a mental well-being workshop by Gavin Seah, an award-winning author of the book *True Humility*.

Teachers who signed up for a Learn-to-Play Kinball session also had an exhilarating and fun workout. Playing it for the first time did not stop teachers from giving their best in this exciting sport.

JamPacked@Bukit Batok VIA Activity

PEPS had the opportunity to collaborate with Jamiyah Singapore via the **Jampacked@Bukit Batok Values-in-Action (VIA)** activity. The activity focused on donating essential food and household items to Jampacked@Bukit Batok, a One-Stop Integrated Community Service Centre providing food ration assistance and other services to those in need in the Bukit Batok Community.

This whole school VIA activity provided our students with the opportunity to practise **Everyday Leadership** by showing empathy towards the financially needy. They displayed active citizenship by contributing back to the community and giving the financially needy the dignity of choice. PEPS students and their parents showed great support!

Teachers' Day Celebration

After a two-year hiatus, we finally came together to celebrate Teachers' Day as a school. The Teachers' Day concert was kicked off with two specially selected piano recitals by Kyra Tan and Ryan Liang from Primary 5A to express their gratitude to the teachers who have played an integral role in their education journey in PEPS.

▲ Kyra Tan (5A) and Ryan Liang (5A)

▲ Primary 3S and Primary 3R showing off their K-pop moves!

The Primary 2s and Primary 3s showcased their Level Signature Programmes. Everyone in the hall was tapping along to the infectious pop tunes that the classes were dancing to.

▲ Primary 2A and Primary 2B performing their pop dances.

The concert ended off with a song by Primary 1D. The audience was mesmerized by the performance. The prefects distributed the Teacher's Day gift that was lovingly handmade by our 3PIE member, Mdm Julia Ong, in partnership with the prefects.

After the students had left the school, the teachers were in for a treat! Our 3PIE had transformed the Conference Room into a beautiful ballroom where the teachers had a delicious buffet lunch with music performed by a live band. A big thank you to 3PIE for putting together such a fun and memorable afternoon for the teachers!

Our 3PIE members performed a special item with their children in 4 different languages to express their appreciation to the teachers.

That afternoon was also the first time in 3 years that the ex-students could return to visit their teachers. Students and teachers alike had a good time catching up with one another.

◀ It's good to be back at PEPS!

Coaches' and Instructors' Day

Since 2017, in conjunction with Teachers' Day Celebrations, MOE has celebrated Coaches' and Instructors' Day to recognize the good work of the coaches and instructors in our schools.

This year, PEPS resumed our celebration with a simple ceremony in the hall on the last CCA session in Term 3. All the CCA student leaders presented a big "Thank You" card to their coaches and instructors to thank them for their dedication in supporting the students' holistic development.

Mdm Moliah at PEPS

Our Journey with Mdm Moliah @ PEPS

Princess Elizabeth Primary School experienced a breath of fresh air when our principal of nine years, Madam Moliah Bte Hashim, wafted in with her exuberance and her firm belief that the staff and students of the school would never walk alone.

A leader with many hats, Mdm Moliah is seen in the eyes of our students, especially the little ones in Primary One and Two, as a maternal figure who loves them, chats with them and takes an interest in what goes on in their daily lives. The Upper Primary students see her as the friend, fun and engaging, who has a good sense of humour and has shared jokes with them during the sessions specially set aside by Mdm Moliah herself to touch base with them.

Little do they know, their principal does not merely concern herself with the arduous task of running the school. She also plays host and has been our school's ambassador in many events that have continued to make PEPS a school that is known and well-regarded by many, both locally and internationally.

To the teachers and staff of Princess Elizabeth Primary School, she is their mentor who has guided and led with compassion. She has laughed and cried with them, and encouraged each and everyone of them to achieve their full potential.

A person passionate about what matters to her, Mdm Moliah has cheered with the students and teachers on Sports Days. She is always keen to participate in the many events that we have in school and gets very excited when the Lion Dance troupe comes to our school during Chinese New Year celebrations. She also never fails to celebrate with the staff and students their many achievements in school and in the public arena.

It is with a heavy heart that we bid our principal and friend a happy retirement. The grace and passion with which she has led the team, teachers and students at Princess Elizabeth Primary School, will be remembered for years to come.

Staff Matters

Thank you for having been a part of the PEPS family.
We will miss you!

▲ Mdm Moliah with Mdm Begum

◀ Mdm Moliah with Mr Eric Loh

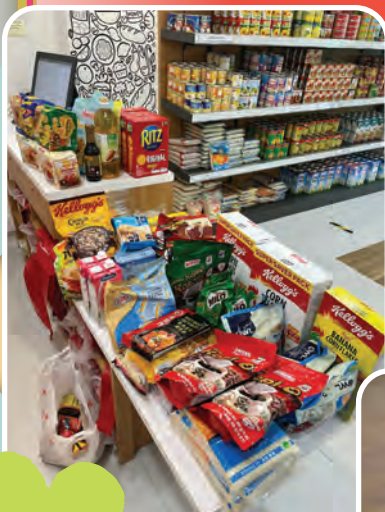

▲ SWBC team saying farewell to their member Mdm Nisah and wishing her all the best

Staff VIA

This year, our staff continued the partnership formed with Food from the Heart@Boon Lay (FFTH@Boon Lay) as well as Helping Joy. Food items were donated throughout the year, and the groceries sent to the Boon Lay outlet at the end of each term.

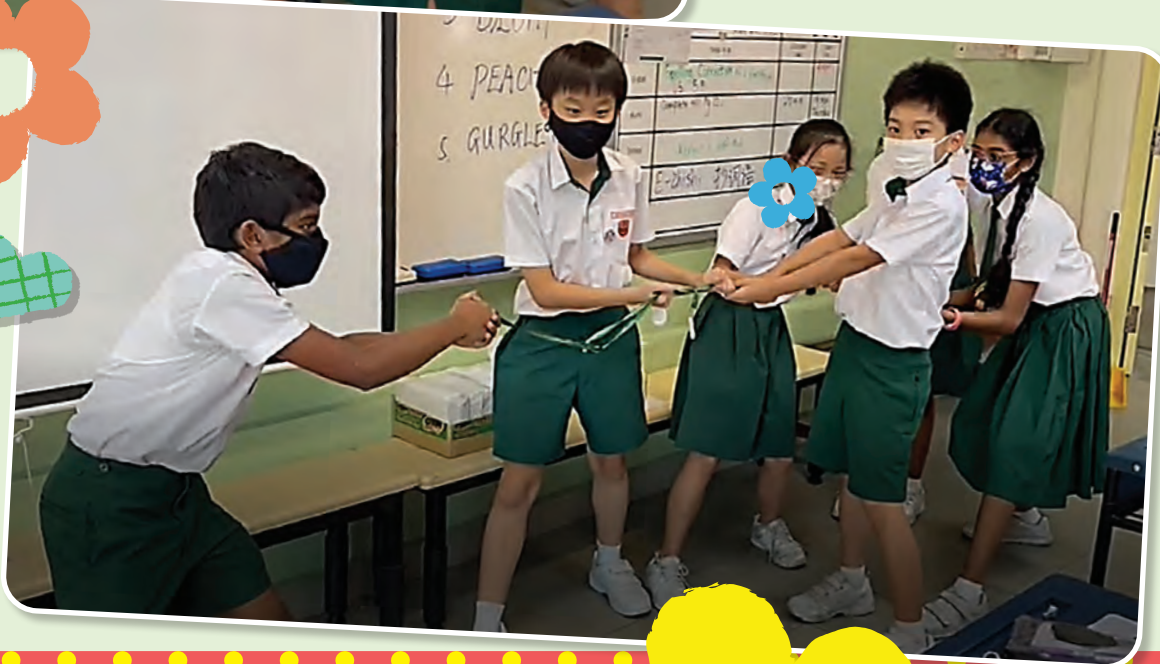

PEPS staff also exceeded the required number of bedsheet sets collected to meet the 100-bedsheet set challenge for recipients of Helping Joy.

Values of the Term/ ASPIRE 2022

This year, our students were taken through an in-depth understanding of the school core values of ASPIRE and the thirty I Will statements that help to unpack these values. In addition, the students were also taught how to demonstrate Everyday Leadership in their daily lives. The Values-of-the-Term lessons enabled explicit learning and understanding of the values, with every term focussing on two core values. Ambition and Empathy took centre stage in Term 1, while Self-Discipline and Perseverance reigned in Term 2. The last 2 values, Respect and Integrity, were explored more deeply in Term 3.

The Values-of-the-Term lessons that were conducted via Zoom during the ASPIRE lessons dwelled on perspective-taking via drama conventions like Conscience Alley, Freeze Frames and Thought Tracking. Students got to watch documentaries and animated video clips that allowed them to put themselves in the different character roles and think like them. It was amazing to see how students took on the role of Ormie, the Persevering Pig, or Saravanan, the ambitious restaurant manager, and aligned their thoughts and speech with each character.

SYF Arts Presentation

Contemporary Dance

23 of our CCA dancers participated in SYF 2022. They performed at Gateway Theatre on 2 July 2022. Our dancers performed a dance entitled 'Bloom' which was about being patient in our own growth. It reminded us to believe in ourselves and not to compare our journey with others. Our dancers gained a lot of experience and this has certainly boosted their confidence on stage.

Chinese Dance

21 Chinese Dance members participated in the Singapore Youth Festival (SYF) on 18 July 2022.

Two months prior to the SYF, additional practice sessions were scheduled to perfect the dance choreography. The members looked forward to the intensive practices weekly and cherished the opportunity to take part in SYF. All the members showed their determination to persevere and strive towards excellence.

On the actual day of the performance, many supportive parents volunteered to help in their costumes and make-up. The members put in their best effort during the performance and had a memorable experience. They also had the opportunity to watch the performances by other schools. The opportunity to perform during SYF was an eye-opening experience for them and it has inspired them to continue to strive towards excellence.

Indian Dance

Our Indian Dancers participated at the SYF Arts Presentation on 28 July 2022. They performed a Garba - a form of dance that originates from Gujarat in India. The dancers had been practising very hard on their dance movements and coordination since January. They persevered through challenging situations such as Covid-19 and fractured arms to complete and perform this dance.

The girls rose to the occasion despite not participating in any competitions prior to SYF. They braved stage fright and did their best for the presentation. We are immensely proud of the Indian dancers as they have worked well as a team, cheering for their team members whenever they faced challenges.

SYF Arts Presentation

Malay Dance

The Princess Elizabeth Primary School (PEPS) Malay Dance CCA Group, performed at the Singapore Youth Festival (SYF) 2022 on 2 August 2022 at the Gateway Theatre. The dance was entitled 'Teduhan Berteman'. It was an Inang genre dance which depicted a group of friends playing in the rain and dancing in pairs. The dancers comprised a total of 9 boys and 9 girls from Primary 2 to 6. The dance started with the boys playfully dancing in the rain. The girls then came along with umbrellas and tried to stop them. The dance ended with the girls joining the boys to dance with delight in the rain.

The dance was choreographed by our school's Malay Dance Instructor Mr Muhammad Rizal and he was supported by the Malay Dance CCA teachers in-charge - Mdm Hasimah and Mdm Fadhillah.

Chinese Orchestra

23 of our Chinese Orchestra members from Primary 4 to 6 participated in the SYF Arts Presentation on 4 August 2022 at the Singapore Conference Hall.

Our members performed a piece entitled '青春圆舞曲'. It was based on a familiar folk song 'Little White Boat' and arranged by our conductor, Mr Lee Khiok Hua.

Throughout the practices, our members showed commitment and perseverance as they strived to improve their playing skills. To prepare well for the Arts Presentation, the members attended additional practices on Fridays as well as during the June holidays.

Our members were very excited as this was their first performance on a national platform. Besides providing our students with a platform to showcase their talents, the SYF also developed in them a greater appreciation of the arts. In addition, the shared experience helped to forge a deeper bonding amongst the members.

Our Chinese Orchestra members have done us proud and we would like to encourage them to continue to live out our school's motto "Each His Best".

Concert Band

20 of our Concert Band members from Primary 4 to 6 participated in this year's SYF Arts Presentation. The presentation was held on 24 August 2022 at the Republic Cultural Centre Theatre, Republic Polytechnic.

The two songs that the band performed were 'Hot Tamales Percussion Feature' composed by Paul Cook and 'Colonel Bogey March' composed by Kenneth J. Alford and arranged by Tohru Minakuchi.

The students practised hard for the event, even coming back during the June Holidays. All of them were very excited as they had never participated in an external event before. Overall, it was a good experience for everyone and this SYF platform certainly enhanced their confidence for future performances.

National School Games

► The PEPS Junior Boys' Basketball Team – Tier 2 Champion

◀ The PEPS Junior Girls' Basketball Team – 3rd in Tier 2

Basketball

The scene for the National School Games Basketball heated up in Term 3 with a packed schedule for our teams.

The PEPS Junior Girls' and Boys' Basketball teams were made up of enthusiastic players with a great passion for the game. In fact, they displayed such insurmountable perseverance and team spirit that they qualified to the next higher tournament category- Tier 2!

Our junior girls did us proud in their matches against schools like Bukit Panjang Primary School and Nanyang Primary School. Their sheer determination enabled them to win the final match against Frontier Primary School. They ended the NSG with a third place finish in Tier 2.

Our junior boys also did us proud when they took many risky shots during their matches. In the final game, PEPS won against Bukit Panjang Primary School and the boys emerged as the champions in Tier 2!

The Junior Girls' and Boys' Basketball teams were Everyday Leaders who displayed the ASPIRE values during all the games. We look forward to more friendly games and tournaments next year!

Floorball

Despite the current Covid situation which put the National School Games (NSG) on hold for two years, our junior school teams did their best for their games this year. They had their first game in July and successfully placed themselves into the Tier 1 Round (highest tier) for both the junior boys and girls in August.

The Tier 1 round was very competitive as we were playing against strong school teams but our junior school team players fought hard. In the end, our junior girls won the 3rd position, and our junior boys emerged as the champions for Tier 1!

Congratulations to the junior school teams for a stellar performance at the NSG!

◀ The PEPS Junior Boys' Floorball Team - Tier 1 Champion

► The PEPS Junior Girls' Floorball Team - 3rd in Tier 1

Soccer

With this year's compressed tiered format, the boys had more games, but were given a shorter break in between games as compared to the previous years. Our boys in the Junior School Team showed grit and perseverance and gained many invaluable experiences throughout the season in Terms 3 and 4.

It was not easy juggling between their schoolwork and trainings. We are very proud of our responsible boys who have learnt to manage their time efficiently through this process.

Keep on striving to do even better next year!

Wushu

Our PEPS Wushu Junior Team represented the school at the NSG Wushu Competition in August this year. The competition took place at the Singapore Sports Hub, OCBC Arena. Our junior boys and girls competed in 2 events each. They showed grit and passion throughout the 4 days of competition. Our heartfelt congratulations go to:

Lin Kai Oliver (3P) for achieving:

2nd Position in 5 Duan Broadsword Junior Boys and
7th Position in 5 Duan Cudgel Junior Boys

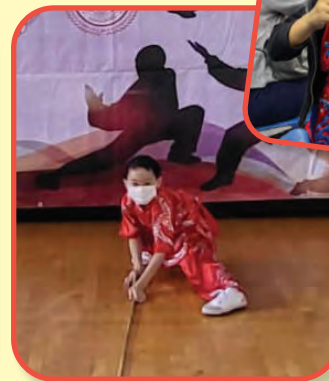

Achievement Pins were also awarded to:

1. Leong Kai Henn (5E)
2. Orion Chng Yu Quan (3R)

Sportmanship Awards were presented to the following students at the school assembly:

- * Alston Aw Jun Yang (6A) Senior Division Boys
- * Lee Lin Kai Oliver (3P) Junior Division Boys
- * Chew Xin Hui Madelyn (5P) Junior Division Girls

Kudos to the other PEPS Wushu Junior Team members: Tan Fei Loong Xavier (5P), Neo Min Fen Jovia (5P) and Shen Yan Xuan (5E) for showing perseverance as they underwent intensive training sessions during the June holidays. The PEPS Wushu Teams are looking forward to competing in NSG 2023!

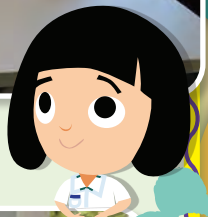

Cepat Tepat Quiz 2022

In conjunction with this year's Bulan Bahasa (Malay Language Month), the Malay Language Learning and Promotion Committee (MLLPC) collaborated with Mediacorp to organise a television game show titled *Cepat Tepat* to ignite and sustain students' interest in Malay language and culture beyond the classroom. Our four Primary 5 students; Iris (5R), Hafiy (5R), Nur Syahirah (5S) and Shereen (5P) each achieved a Certificate of Participation after going through the Selection Round on 9th April 2022.

Moving forward, our school was invited to select two students from the Selection Round for the *Cepat Tepat* Quiz 2022. This time around, the game segment was broadcast on Mediacorp Warna 94.2FM. On 12th September 2022, Hafiy (5R) and Nur Syahirah (5S) were on air at about 2.15pm with the radio deejay to answer the quiz questions. They won a prize voucher each for themselves!

▲ Hafiy (5R) and Nur Syahirah (5S) took part in the Mediacorp Warna 94.2FM Radio Game Segment

National Mathematical Olympiad of Singapore Competition (NMOS)

The National Mathematical Olympiad of Singapore Competition (NMOS) was held in Term 3, Week 1 (29 June 2022). It was organised by NUS High School of Mathematics and Science.

A total of 27 students from Primary 5 took part in the competition. Lew Hui En, Grace, from Primary 5 Ambition did our school proud by qualifying for the Special Round! Out of the 27 participants, 2 students received the Silver Award, 2 students received the Bronze Award and another 8 students received the Honourable Mention Award.

It was certainly an enriching experience for our students as it was the first time that most of them participated in an external competition. Well done to all our participants!
