NEW DEATH REGISTRATION PROCESS
(With effect from 20 Feb 2022)

NOTE: This document is NOT a death certificate. It may be used for the purposes of booking of facilities for funeral wake and burial/cremation.

Under the Registration of Births and Deaths Act 2021, death will be automatically registered once a doctor certifies the death and submits the death information online to the Registry of Births and Deaths.

Please visit My Legacy website at <https://www.mylegacy.gov.sg> to download the digital death certificate. You will have 30 days from the date of death certification to download from My Legacy.

You will require the following information in order to download the digital death certificate from My Legacy website:
1) Death Certificate Number
2) Deceased's identification document number used by the doctor (NRIC, FIN or passport number)
3) Deceased's date of death

There is no need for the deceased's NRIC to be surrendered for physical invalidation. The NRIC will be automatically invalidated in ICA's system once the death is registered. To prevent misuse, you should destroy the NRIC (such as cutting it in half). The use of another person's NRIC is an offence under the National Registration Act which carries a penalty of a fine not exceeding \$10,000 or imprisonment for a term not exceeding 10 years, or both.

Disclaimer: WARNING: This document is printed from the NEHR System and represents processed data which may vary from the data available from the source system.
