# COVID-SAFE RESTART UPDATE
## - Week of 8 June 2020

## BCA-INDUSTRY COVID-SAFE RESTART WEBINAR
Working Together Towards COVID-Safe and Restart Ready
(3 – 5 June 2020)

Thank you for your participation in the webinar series last week. The video recording of the sessions have been uploaded for your reference.

The sessions have also facilitated a platform for the collation of feedback and questions on the COVID-Safe Restart criteria and process. The **Webinar Q&As will also be published** in the link as we collate responses to the questions raised.

## ACCELERATING TRAINING IN THE SAFE MANAGEMENT OFFICER (SMO) COURSE FOR CONSTRUCTION

**We are expanding the training capacity** for the SMO Course for Construction in the month of June 2020.  A total of **40,000 training places** will be available in June 2020 for SMOs and Safe Distancing Officers (SDOs) in the construction sector.

In addition to BCA Academy and SCAL Academy, the SMO Course for Construction will be available at NTUC LearningHub from 15 June 2020 onwards. Participants from all three institutions will be recognised under BCA's COVID-Safe Restart Criteria. Where applicable, we will be contacting registered candidates on the availability of earlier dates for their training.

For details on COVID-Safe Training Requirements and COVID-Safe Worksite Requirements, please refer to **BCA's COVID-19 webpage**.

## ENCOUNTERING AccessCode ISSUES?

Workers who are holding the construction sector work pass and S-Pass should only be deployed **to work if the AccessCode in the SGWorkPass app indicates a green status**. If you are encountering problems with AccessCode even though you have obtained BCA's approval for your workers to work and have updated their addresses with MOM OFWAS and EPOL, please give us the details in this file, and send it to **BCA_Inforequest@bca.gov.sg.**
