

SCREEN USE TRACKER

For 7-12 Years Old

How to Achieve Healthy Screen Use 😊

- Less than 2 hours of screen use a day, unless related to schoolwork.
- Use parental control settings and check content ratings to ensure content is age appropriate.
- Talk to your child often on what they are viewing online.
- Offer advice regularly

How to Use the Screen Use Tracker with Your Child

Talk about screen time together

- Discuss your child's current daily screen use and agree on a healthy limit together. Refer to the age-based screen use guidelines stated on the tracker.

Set a shared goal

- Decide on a weekly reward with your child — something meaningful that motivates them.
- Cut out the words of encouragement and paste it on the last row

Keep an eye on screen habits

- Each night before bed, sit with your child to reflect on the day.
- Note their screen time outside school, the devices used, and how they were used.

Celebrate progress

- Acknowledge small wins and improvements. Every screen-free moment is a step towards closer bonds and healthier habits.
