FAQs

What is the YCM - YC (Sport) grant? How is it different from the YCM?

The YCM - YC (Sport) grant is co-funded by the NYC and Sport SG to support youth-led sporting initiatives. Project must engage the community through sporting / physical activities.

How do we define community engagement?

We would love to primarily look at active participation. For example, in a dance performance, active participant would be the dancers, rather than the audience.

What qualifies as sporting / physical activities?

Any activity that gets the body moving and raising your heartbeat! We would love to support projects that range from basketball, climbing and skateboarding, to even Esport (but only if they involved physical activity, such as JustDance).

What happens if my project is assessed to lack sporting elements?

Projects that are assessed to lack sporting / physical activities required to qualify for the YCM - YC (Sport) grant can still be considered for the YCM grant if it meets the eligibility of YCM grant (projects that benefit the Singapore community). The YCM grant provides seed funding of up to \$5K.
